SUMMARY

Results-driven Software Engineer with 2 years of experience building scalable web and backend systems using React, Node.js, Vue.js, and REST APIs. Proven ability to deliver production-ready features, optimize performance, and collaborate in Agile teams. Strong focus on clean architecture, UI/UX, and maintainable code.

SKILLS

- Frontend: React, Vue.js

Tools & Languages: Git, JavaScript, TypeScript, Java, C#
- Backend: Node.js, Express.js

Databases: MongoDB, MySQL, PostgreSQL

PROFESSIONAL EXPERIENCE

- Software Engineer — Programmers Force

Jan 2024 - Present

 - Developed and deployed full-stack features using Node.js, React, Vue.js, and MongoDB/MySQL, delivering production-ready modules from concept to release.
 - Transformed Figma designs into responsive, pixel-perfect interfaces with attention to detail in UI/UX.
 - Implemented and maintained backend logic including REST APIs, authentication, and data handling, while collaborating with designers and QA in an Agile environment.
 - Optimized application performance and resolved production issues, improving load times and overall system stability.
- Software Engineer — Finz Games

June 2022 - DEC 2023

 - Developed 3D mobile fighting games using Unity and C#, implementing optimized gameplay mechanics.
 - Created dynamic cutscenes using Unity Timeline and improved performance through memory and asset optimization.
 - Debugged and refactored gameplay systems to enhance stability, responsiveness, and overall player experience.

PERSONAL PROJECTS

- Connect Wheels (In Progress)

 - A scalable car listing platform built with a microservices architecture, featuring real-time chat and secure authentication. Designed RESTful APIs, implemented JWT-based auth, and worked on an API Gateway for service communication. Developed responsive frontend interfaces for browsing and listing vehicles.
 - Tech Stack:** Node.js, TypeScript, Express, MongoDB, PostgreSQL, React
- MihRM — Employee Management System

 - Developed an employee management system with role-based dashboards, attendance, and leave management.
 - Tech Stack:** Node.js, Express, MySQL, Vue.js
- Quiz Management System

 - Developed a quiz platform using REST APIs, JWT auth, and role-based dashboards.
 - Tech Stack:** Node.js, PostgreSQL, Vue.js

EDUCATION

University of Management and Technology , LAHORE

CGPA: 3.81 | Silver Medalist

Dec 2018 - Dec 2022

BS(CS)
